27 April 1945

5/1/45
Spec. H. 1

To: Director

Subject: Campbell Project

1. The Board of Review has been requested by the Contract Division of the Procurement and Supply Branch, as indicated in the attached memorandum, to advise that division on the question of whether an extension of a contract with RCA for the Campbell Project is within the authorizations for that project previously approved by the Director on recommendation of the Board of Review.
2. The Board has ascertained, after conversation with Lt. Larison, that the amount of \$20,000 previously approved by the Director for the Campbell Project was not intended to cover the RCA agreement but was rather designed to take care of travelling expenses, cost of the Florida base and related items. Accordingly, the Board of Review is making the RCA agreement the subject of this separate recommendation, even though it has been in effect for four months and is proposed to be extended for an additional six months.
3. The agreement with RCA, which has called for payment from vouchers fund, makes available to the Campbell Project an engineer whose particular talents are in the direction of eliminating difficulties in radio and television control. His services are also utilized for instructing the personnel who must maintain the missiles in the theaters. The agreement is intended to compensate RCA for the salary of the engineer, plus travel and other related expenses. No profit to RCA is provided for.
4. The Board of Review recommends that you confirm the expenditure during the past four months of the amount of \$4,372 under the subject contract and further recommends that you approve an extension of the contract for an additional six months at the additional amount of \$3,558 and the allocation of the required amount of \$10,980 of vouchers fund therefor.

6 January 1945

TO: Deputy Director - SSO

SUBJECT: Campbell Project

1. The Director approved a Board recommendation of 15 June 1944, allocating \$10,000.00 of Special Funds to the above project.

2. We will appreciate it if you will give us a current analysis of the cost to date of this project, both from Special Funds and Vouchered Funds.

Of course we are primarily concerned with funds obligated or spent from our own appropriation, but it will be informative if you can tell us approximately how much equipment or supplies we have received from the Army, Navy or Air Corps at no cost to us.

3. We suggest that the analysis should show: -

Total purchase of supplies and materials;
Travel and expenses connected with travel;
Salaries or consultant's fees directly concerned with the project;
Any financial commitments beyond the above.

CONFIDENTIAL

CONFIDENTIAL**OFFICE OF SUBTANTIAL SERVICES**

Washington, D. C.

19 June 1945

TO: Mr. Charles S. Sheahan

SUBJECT: Lease of Buttonshell Beach.

1. In the attached comments, Schools & Training Branch has referred to the Board of Review a request for approval of the leasing of an additional property, known as Buttonshell Beach on Catalina Island, for the use of Colonel Eiler's Field Experimental Unit. The Board understands that the leasing of this particular piece of property has already been authorized by you in a LTR dated 4 May 1945 to Colonel Campbell in San Francisco. We presume that you have also authorized the \$10,000 for construction which Colonel Eiler's memorandum indicates has already been undertaken.

2. In view of the decisions made during the past week concerning the continuation of training on Catalina, the Board of Review recommends that in any lease covering this property, adequate provision be made for termination by the first of October.

3. The Board of Review has undertaken to question Major Francis concerning the necessity for maintaining separate living areas for each of the teams now being planned for operations. This inquiry was made primarily because the Board of Review had heard that each of the teams had acquired a knowledge of and a familiarity with the other teams and that the security which they had thereby become had thereby become non-existent. The Board was not questioning the security of the individual since that is not its province, but obviously a great deal of work would be achieved if it were possible to consolidate the training for Colonel Eiler's individual units. Major Francis has taken the view, however, that the security of the individual teams is still existent and that it is not his responsibility to know of the plans and makeup of the teams. Accordingly he feels strongly that the continuation of separate living is essential. In the light of these considerations, the Board has no further question concerning the necessity of separate training centers for each team.

OFFICE OF STRATEGIC SERVICES

Washington, D. C.

1 June 1948

To: Acting Director
 Subject: Catalina Island Leases

1. The Board of Review has considered the attached leases proposed to be executed with the Santa Catalina Island Company covering six parcels of property on Catalina Island. The lease, which has been approved by the General Counsel's office as to legal form, provides for the leasing of such parcels for the period 10 March to 30 June, 1948 and for yearly terms thereafter upon 90 days notice to the lessee. The Schedule & Draining Branch proposes to give notice of renewal for the fiscal year beginning July 1, 1948 as soon as the lease is executed. The lease will at all times, however, be subject to cancellation on 90 days notice and in any event will terminate six months after a formal declaration that a state of war no longer exists.
2. The total rental called for by the lease for the six parcels, which includes all taxes in which the parcels are interested (except the luthous tax to which a separate option agreement is to be submitted in accordance with a previous recommendation of the Board of Review), is \$1045.75 per month. In addition, the lease spells out the financial responsibilities of the lessee for payments for water and power which are high in terms of actual cost for such utilities but are based upon the peculiar situation respecting the island.
3. The Board of Review is willing to recommend at this time the execution of the proposed lease, on the terms set forth therein, to cover the parcels ending June 30, 1948 and further to recommend the renewal of the lease for the fiscal year beginning July 1, 1948. It may be that during the course of the fiscal year 1948 the necessity for all or any or all the parcels of land on Catalina Island may cause, but in such case termination can be effected upon 90 days notice.

CONFIDENTIAL

The Board of Review intends to study further the financial aspects of the use of Catalina Island as a training base and as a result thereof it may wish to make further recommendations.

4. It seems advisable that vouchered funds be utilized for the payment of the financial obligations under the lease. The Board of Review accordingly recommends that you approve the lease and the renewal thereof for the fiscal years 1945 and the allocation of the required amount of vouchered funds therefor to meet the financial responsibilities set forth in the lease.

OFFICE OF STRATEGIC SERVICES

Washington, D. C.

16 April 1946

TO: The Acting Director

SUBJECT: Emerald Bay, Johnson's Landing and the Isthmus
on Catalina Island

1. The Board of Review has considered with Dr. McConaughy and Colonel Robinson the attached papers relating to the leasing of two additional parcels of land on Catalina Island.

2. With reference to the smaller parcel, Emerald Bay and Johnson's Landing, the Board understands that this parcel is adjacent to an area presently being used by Colonel Hilder's group and that its leasing is necessary in order to afford an opportunity for expansion or, at least, to insure privacy for the present Hilder location.

3. The Board recommends approval of the leasing of this parcel at a rental of \$150.00 per month and the allocation of the required amount of vouchered funds therefor.

4. In respect of the larger parcel, the Isthmus, the Board understands that the leasing of it was originally contemplated as a measure for preserving the security of the other training areas on the island. However, it has now developed that no other lessees, including the Navy, are indicating any specific interest. On the other hand, the leasing of the property by OSS would impose a tremendous strain upon personnel and other facilities since a border system of fire watching and guarding would be necessary.

5. In view of these considerations, the Board of Review recommends that the Isthmus property not be leased by OSS. It recommends, further, that one month's rental, or two months if desirable, be paid to the lessor and that in return therefor OSS ask from the lessor an option whereby OSS may have a period of time in which to decide whether or not to lease the property in the event that any other prospective lessee appears.

6. In view of the security considerations connected with the Isthmus, and the other circumstances as outlined above, the Board of Review recommends that in this case unvouchered funds be utilized to cover the one month rental period.

1. The Board of Review has considered the attached request from Major Perry requesting authorization for a maximum expenditure of \$25,000 under an existing contract with Radio Corporation of America for the development of plans for ground communications equipment.

The purpose of the present proposal is to amend existing arrangements by raising the maximum expenditure from \$12,000 to \$25,000, in order to cover additional research and developmental work which must be carried on by RCA's engineering representative before the equipment is fully perfected.

The present contract calls for payment from unvouchered funds in view of the confidential nature of this work.

The Board of Review recommends that you approve this request for an additional \$13,000, making the total maximum expenditure not to exceed \$25,000, and the allocation of the required amount of unvouchered funds therefor.

TOP SECRET

11 April 1948

TO: The Acting Director

SUBJECT: Evaluation of X-2 Branch Projects.

1. The Board of Review has completed its inquiries concerning projects being carried on by the X-2 Branch. It has received from that Branch a memorandum in reply to questions asked by the Board and it has also consulted with various members of the Branch.

2. In respect of the four principal projects (as the term was defined in the Board of Review's memorandum to all Branch Chiefs) the Board of Review does not recommend any change in present existing authorizations, but makes the following comments for your consideration:

(a) Beirut Project

The Board has ascertained that all existing authorizations for the drawing of funds in Washington for this project have expired and that beginning 1 January 1948 the entire activity was transferred to the Middle East. The Strategic Services Officer, Cairo, has approved the allocation of \$2,000 of unvouchered funds, per month, for this project. In view of the transfer of the project to the Theater, the Board does not propose to recommend any further expenditures from Washington, but instead has notified Colonel Aldrich that he and his Theater organization should henceforth assume responsibility for the allocation of appropriate funds.

(b) Insurance Intelligence Unit

The Board of Review discussed this project at some length with Major Rughin and ascertained from him the accomplishments of the Insurance Intelligence Unit. Evidently the unit has proved to be of value in the past, not only for counter-espionage functions, but also by furnishing to R & A valuable information derived from insurance companies' files relating to bombing targets. However, we understand from Mr. Martin of the Far East Division, R & A, that it is probable that most of the valuable information along these lines has now been obtained. Nevertheless, the

TOP SECRET

TOP SECRET

- 2 -

11 April 1945

The Acting Director

Board has no question concerning the value of this project for counter-espionage purposes and makes no recommendation concerning any revision or modification of it.

(c) Oxley Project

The Board makes no recommendation for revision or modification of this project, although it expects it to clarify with the Strategic Services Officers and Theater Board of Review. The extent to which Washington and the theaters should respectively be the responsibility for recommending future budgets, since a substantial part of this project is carried out in the field.

(d) Bamboo Project

Since this project is now dormant it is recommended that no further funds be drawn or authorized for this activity until such time as its revival seems possible. If that date not occur within a reasonable time the Board of Review expects to re-examine it and will probably recommend its abandonment.

Recommendation of financial arrangements for Mr. "Richard Lowe", operating under cover for SI in Iran.

SECRET

SECRET

SECRET

16.607

OFFICE OF STRATEGIC SERVICES

Washington, D. C.

11 April 1945

TO: The Acting Director**SUBJECT:** "Richard Lowe"

1. The Board of Review has considered with Mr. Gordon Loud, and a representative of the General Counsel's office, the attached document relating to financial arrangements for Mr. "Richard Lowe", who operates under cover for SI in Iran. Two of the items, consisting of \$3,684.87 to be reimbursed to the Metropolitan Museum of Art and a second item of \$2,400.00 a year for maintenance and guarding of Metropolitan Museum buildings in Iran, are directly related to the maintenance of Mr. Lowe's cover. The remaining item of \$5,000.00 a year salary, plus \$10.00 per diem, represents arrangements made in the past for compensation to Mr. Lowe.

2. The Metropolitan Museum has proposed in respect of the \$2,400.00 maintenance cost that the Government give six months' notice of its intention to withdraw from the undertaking; this requirement might conceivably carry an obligation of OSB into a period for which it may not in the future have funds available.

3. The Board of Review believes that all of these items are justifiable and recommends approval thereof and the allotment of the required amounts from unvouchered funds.

The Board further recommends, however, that the arrangement with the Metropolitan Museum of Art be embodied in a letter agreement satisfactory to the office of the General Counsel; and that in the negotiation of such agreement attention be paid either to the possibility of reducing the six months' notice of termination proposed by the Metropolitan Museum, or of receiving formal assurance from the Museum that such a period of notice is regarded by it as essential.

To: The Director

SUBJECT: Visual Aid Training Kits

1. The Board of Review has considered with Colonel Robinson and Mr. John Abbate of Schools and Training the suggested recommendation by Mr. Ream for the procurement of 30 Visual Aid Training Kits. The Board has also received from Colonel Robinson the attached statement of the uses and content of the truck kit and the photographs of it.

2. The Board understands from Mr. Abbate that the cost of the individual kit will be higher by \$150. than the amount set forth in Mr. Ream's memorandum, due to additional packing expenses which must be incurred. The total cost of the kit would then be approximately \$750, making a total of \$22,500 for the requested 30 units.

3. Detailed requests from the field and representations by certain Washington Branches indicate that such a kit can be put to valuable use. It will be utilized in areas and camps where the facilities of presentation are not available or are not suitable for the work required. Accordingly, no duplication should be involved.

4. The Board of Review, therefore, recommends that you approve the procurement of 30 Visual Aid Training Kits at a price not to exceed \$750. per kit, and the allocation of the required amount of unencumbered funds therefor.

OFFICE OF STRATEGIC SERVICES
Washington, D. C.

16,624
8 April 1945

TO: The Director
SUBJECT: Spare parts for Airplanes.

1. The Board has considered the attached memorandum from Mr. Ream, requesting authority for the payment of \$4,576.37 for airplane parts. Although the amount involved is less than \$5,000.00 the Board of Review has considered it because it regards this item as part of the original project involving the purchase of 2 Waco and one Stinson planes, the total cost of which was in excess of \$5,000.00.

2. The Board is convinced of the necessity which existed for the procurement of these parts. It has noted, however, that there has been no inspection of the parts actually delivered since they were received as the manufacturer packed them for overseas shipment. In lieu of any such check a certificate from an officer of the supplier as to the parts supplied has been obtained.

3. The Board recommends approval of the attached request and the allocation of \$4,576.37 from unvouchered funds therefor. It further recommends that the shipment be carefully checked upon arrival at its destination and compared with the listing submitted by the supplier in order that any discrepancies may be questioned with the supplier.

4 April 1945

To: The Director

SUBJECT: Proposed leasing of space at Dorchester House

1. The Board of Review has considered the attached proposal by Mr. Ream for the rental of office space in Dorchester House for the use of the Latin American Division of R & A.

2. It is regrettable that any further geographic splitting up of R & A has to take place by reason of space considerations. However, the Board realizes that until the Agency's space problems can be settled on an over-all basis, the utilization of whatever offices are available around the city is inevitable.

3. The proposed rental, amounting to approximately \$1.00 per square foot per year, seems to be reasonable, particularly since heat, light and water are to be supplied by the lessor. It is assumed that OSS will make its own arrangements, satisfactory to the Security Office, for appropriate guarding and protection of the premises.

4. The Board recommends that you approve the proposal for the rental of the premises described in Mr. Ream's memorandum at an annual rental of \$3,000.00 and the allocation of the required amount of vouchered funds.

The Board further recommends that, if possible, a short term cancellation clause be inserted in the lease, in order that the Latin American Division may be rehoused with R & A and other OSS units at the earliest time that space will permit.

OFFICE OF STRATEGIC SERVICES

Washington, D. C.

"O.K. but be sure where
possible to use
vouchered funds -
Dawson"

5 May 1945 5/8/45

To: The Director
Subject: "Greens" Project

1. The Board of Review has considered the attached proposal by NBO for an increase from \$59,800.00 to \$88,100.00 for the "Greens" Project to cover the three month period, April through June 1945. The attached memorandum from Colonel Mann explains in detail the items which will be increased under the proposed new budget.

2. The principal items calling for the increase consist of \$12,000.00 for the construction of office, sleeping quarters and mess rooms, and \$5,000.00 for special equipment consisting of recording and play-back equipment. This equipment is intended to be installed in order to give OS its own facilities in place of the present use of NBO's studios in San Francisco.

3. The Board is cognizant of the fact that the security aspects of this operation call for the provision of separate quarters for Japanese personnel and therefore believes the item of \$12,000.00 for this purpose to be justifiable. The Board also believes that it is financially justifiable, as well as desirable from a security point of view, to provide recording and play-back equipment. At a cost of \$5,000.00 the equipment will have paid for itself at the end of the three month period since it will eliminate the present payment of approximately \$70.00 per day to NBO for its facilities.

4. The secret and confidential nature of the entire project, particularly in view of the use of Japanese personnel, justifies the use of unvouchered funds for the entire budget. Although it might be possible to procure certain of the individual items from vouchered funds, their relationship to the entire project might thus be revealed and the use of unvouchered funds for the whole therefore seems to be desirable.

5. The Board of Review accordingly recommends that you approve the revised budget for \$88,100.00 for the "Greens" Project and the allocation of the required amount of unvouchered funds therefor.

SECRET16,549
26 March 1945

TO: The Director

SUBJECT: Procurement of Maps from the Iraq Government

1. The Board of Review has considered the attached request from Captain Robinson for the purchase of 15,000 sheets of maps from the Iraq Survey, to be paid for at the rate of 40¢ to 80¢ per sheet. This would call for a total expenditure of from \$6,000 to \$12,000.

2. The Board has ascertained that, although there are Land Lease arrangements with Iraq, there are no provisions for Reverse Land Lease from that nation. Accordingly, there is no possibility at this time of securing the maps under such a procedure.

3. The Board understands from Captain Robinson that several technical points must be cleared up before the Map Division decides that it wishes to take the 3,000 maps of the Cadastral Survey, but that if such points are cleared up satisfactorily, the maps will be of great value. Captain Robinson has stated that because of the area covered by these maps and the identity of the institution from which they are to be procured, the purchase of the maps should be regarded as confidential.

4. The Board of Review is convinced of the need for such maps, subject to Captain Robinson's decision on certain technical points concerning the Cadastral Survey maps. It, therefore, recommends that you approve the procurement by the Map Division of not to exceed 15,000 sheets at a price not to exceed 80¢ per sheet. The Board further recommends, in view of the confidential nature of the purchase, that you approve the allocation of the required amount of untroudered funds for such purpose.

OFFICE OF STRATEGIC SERVICES

Washington, D. C.

30 May 1945

To: The Acting Director

Subject: Renewal of Contract for Teletypewriter Line to the West Coast.

1. The Board of Review is presently in the process of reviewing existing contracts calling for the expenditure of \$5,000. or more which are coming up for renewal for the next fiscal year. In each case, the Board of Review will make a recommendation to the Director's Office concerning the necessity for renewal.

2. One such contract is that which has been entered into by OSS with Western Union for a teletypewriter line between Washington and the West Coast which was installed in substitution for the old TWE system. The Board of Review had recommended approval of the contract on 20 March 1945 and the Director had concurred.

3. The teletypewriter line is designed to handle the regular communications traffic between Washington and the West Coast and is not based upon any requirements existing during the period of the San Francisco Conference. In view of the necessity for maintaining direct communications with the West Coast and because of the savings involved in the use of the teletypewriter, the Board of Review recommends approval of the renewal of the contract with Western Union for the coming fiscal year and the allocation of the required amount of approximately \$1,000. per month from vouchered funds.

20 March 1945

TO: The Director

SUBJECT: Substitution of Direct Teletypewriter
Line for TWX Facilities to the West Coast.

1. The Board of Review has considered with Major Delafield and Lt. Jennings the proposals made in the attached memorandum from Major Delafield for the substitution of direct Western Union teletypewriter line between Washington and the West Coast in place of the present TWX system.

2. The Board of Review agrees with Major Delafield's statements that a substantial financial saving will result from the substitution, with no hindrance or difficulty in maintaining transcontinental traffic. The savings, which are more fully outlined in Major Delafield's memorandum, will amount to approximately \$1,000 per month on the basis of the present amount of traffic. In the event of a substantial increase in traffic, the saving would nevertheless be maintained since the additional message costs under the new system would be substantially lower than under TWX.

3. The Board of Review, therefore, recommends approval of the proposal to use the Western Union direct teletypewriter line and the allocation of the required amount of vouchered funds therefor.

SUBJECT: Regulation #45547 for Insulation Resistance Testers.

1. The Board of Review has discussed with Major Perry the attached requisition for 100 Holtzer-Cabot Insulation Resistance Testers, estimated to cost \$125.00 per unit, less 12%.

9. The Insulation Tester is intended to be used primarily in the Far East for maintenance purposes and represents a standard item for appraising insulation resistance. Because of its use in the Far East, the requisition has specified that the testers should be fungus-treated and water-proofed. Each of these processes is now standard and presents no difficulty.

3. The Board of Review recommends that you approve the attached requisition for 100 Model 40-A Insulation Resistance Testers at a cost of \$125.00 per unit, less 12%, and the allocation of the required amount (\$11,000) of vouchered funds therefor.

Washington, D. C.

23 March 1945

TO: The Director

SUBJECT: Direct Leased Wire Between Washington, D. C.
and San Francisco, California

1. The Board of Review has considered and discussed with Major Delafield the attached memorandum recommending approval for a direct leased wire between Washington and the West Coast to cover substantially the period of the San Francisco Conference.
2. The Board understands that you have instructed the Message Center to be prepared to handle a volume of 20,000 to 25,000 words a day during the period of the Conference. This volume obviously cannot be handled by present systems and accordingly some facilities in addition to those presently in existence, or the recently approved Varioplex channel, will be necessary.
3. The Board, therefore, recommends that you approve the leasing of a direct wire to the West Coast on a month to month basis for a period not to exceed three months and at a cost not to exceed \$4,000 per month, and the allocation of vouchers funds therefor.

Washington, D. C.

13 March 1945

TO: The Director

SUBJECT: Two Special Craft for FEU

1. Attached is copy of memorandum of 12 March 1945, which Mr. James Cooley has discussed on behalf of Colonel Bigelow with the Board of Review.
2. The Board understands that you have authorized the project for which the two special boats mentioned in the memorandum are to be procured and that you have urged that steps be taken immediately looking toward their procurement.
3. The price quoted for the two craft seems to be reasonable and it would also seem to be justifiable to let the contract for their design and construction to Sparkman and Stephens in view of the experience of that firm in the type of work contemplated.
4. The Board recommends the approval of the procurement of these craft and the allocation of \$20,000 of Special Funds to cover the cost of designing and manufacture.
5. It further recommends that there be inserted a standard re-negotiation clause in the contract for their design and construction.

No. 461

5 March 1945

TO: The Director

SUBJECT: Pick-Up Device

1. The Board of Review has considered with representatives of the Deputy Director, SSO and Procurement and Supply Branch the attached memorandum requesting authorization for the procurement of 8 pick-up winches for personnel. The Board has also reviewed the exchange of cables with Colonel Coughlin on this subject and believes that the need for the winches has been amply demonstrated.
2. The Board has also considered the possible effect of the development of the Helicopter pick-up on the attached request but has concluded that any such development, if it takes place, would represent a supplementary method of pick-up and would not at this time constitute an adequate substitute for this request. This is particularly true since the Board understands that the Helicopter technique is still in the developmental stage, whereas the winch has become an Air Force standard item since the time of the Porter experiments.
3. The Board understands from Procurement and Supply Branch that it is intended to place the contract with All American Aviation, Inc., the firm which has developed the winch and is consequently fully qualified to manufacture according to required specifications. The quoted price of \$50,000 is not firm but is the company's best estimate of cost for the winches, without accessories. If certain accessories are procured the cost may be slightly higher.
4. The Board of Review recommends that you approve the request of the Deputy Director, SSO, payment to be from vouchered funds, and further recommends that any contract respecting the winches contain the standard renegotiation clause. It also recommends that, if and when the winches are turned over to the British, negotiation be entered into for crediting such items to international aid.

OFFICE OF STRATEGIC SERVICES

Washington, D. C.

13 March 1945

TO: The Director

SUBJECT: Moscow Press Reading Bureau Service

1. The Board of Review has considered the attached request from the Interdepartmental Committee for the transfer to the State Department of \$3,500 as a contribution toward the maintenance of the Moscow Press Reading Bureau Service for the period ending 30 June 1945.
2. The recommendation has been discussed with Lieutenant Kilgour, Lieutenant Woodring and Dr. G. T. Robinson, USSR Division of R & A. The Board is convinced from its conversation with Dr. Robinson of the value to OSS of the Moscow Press Reading Bureau Service and of the justification for the amount requested as the contribution of the Interdepartmental Committee to the maintenance of this service.
3. Lieutenant Kilgour recommended that the amount be made available from Special Funds since the State Department, which also contributes to the service, utilizes its unvouchered funds for this purpose. Lieutenant Woodring has investigated, at the request of the Committee, the possibility of using .002 or .001 funds and has found that the State Department regards the matter as sufficiently confidential to justify, in its own case, the use of special funds, and has expressed its opinion that the use of other than special funds by OSS would result in difficulties and complications.
4. The Board of Review had also found that in the past the USSR Division of R & A has contributed to the support of the Press Reading Bureau Service independently of any IDC contribution. The Board believes that it is more practicable to channel all contributions through one source and accordingly asked for and received from Dr. Robinson the attached memorandum to the effect that the USSR Division would not recommend any appropriation of R & A funds for the service. Dr. Robinson has stated that the payment contemplated by IDC "will constitute an adequate contribution by OSS to the maintenance of this valuable Press Service for the period in question".
5. The Board of Review, therefore, recommends the approval of the request for \$3,500 for the Interdepartmental Committee's participation in the Moscow Press Reading Bureau Service and the allotment of Special Funds for this purpose.

OFFICE OF STRATEGIC SERVICES

SECRET

Washington, D.C.

19 May 1945

To: Acting Director
 Subject: Thailand Funds

1. On 6 March 1945 the Board of Review recommended and the Director approved a procedure for drawing monies from the so called Thailand FE-3 Fund; this procedure did not apply to or affect an additional fund known as PTRM, which can be drawn upon only with the concurrence of the Thai Minister. The procedure was that of having the FE-3 fund drawn upon only by Col. Hoffman, Chairman of the Thailand Committee, and upon his certification that the purposes for which the money is to be drawn has been approved by the Thailand Committee.

- 2a. Since that date two problems have arisen in respect of the Thailand FE-3 Fund. First, Col. Hoffman's absence from Washington for extended periods of time has meant that during such periods no one can draw upon the Fund. A second problem, set forth in the attached memorandum of 24 April 1945 from Col. Hoffman, relates to requisitions for Thai funds originating in the field for projects undertaken in the field; as to these, the Thailand Committee has requested that it be relieved of the responsibility of recommending such expenditures. On this latter problem, the Board of Review has consulted with Mr. Diamond who believes that a feasible system could be worked out whereby, on projects originating in the field, the certification or request of the Strategic Services Officer could be honored, without the necessity of approval of the Thailand Committee in Washington.

The Board of Review recommends that the first problem outlined above be met by the appointment of an alternate from the membership of the Thailand Committee who could act in Col. Hoffman's absence; either Lt. E.G. Wilson, USNR, or Lt. Col. A.D. Hutcheson might be considered in this connection. In respect of the second problem the Board of Review recommends that Mr. Diamond and the Special Funds Branch be instructed to honor requisitions certified by the Strategic Services Officers in either China or India-Burma for monies to be drawn from the Thailand FE-3 Fund for projects originating in and to be carried out in the field; and that the Special Funds Branch work out appropriate procedures for keeping the Thailand Committee informed of action taken in honoring requests from such Strategic Services Officers.

6 March 1945

TO: The Director
 SUBJECT: Thailand Fund

1. The Board of Review has considered with Mr. Dimond and Lt. Col. Hoffmann the attached memorandum concerning the Thailand Fund.

2. We understand that the fund has been made available to OSS by the Thai Minister for OSS operations in Thailand. There is no term in the agreement under which the money was turned over to OSS which would specify the procedures for requisitioning the money internally within OSS.

3. In the past, as Mr. Dimond points out in his memorandum, the fund has been drawn upon by the Chief, S.O. and S.C. officials, since the primary emphasis had been on their operations in Thailand. However, it has been cleared with the Minister that the fund may also be used for intelligence purposes and emphasis is evidently shifting in that direction.

4. In view of the shifting of emphasis which has taken place and in view of the Director's creation of a Thailand Committee, it seems advisable to have the fund drawn upon in a manner other than that which had obtained in the past.

5. The Board of Review proposes, and Col. Hoffmann and Mr. Dimond concur, that the fund should hereafter be drawn upon by Col. Hoffmann only and upon his certification that the purpose for which the money is to be drawn has been approved by the Thailand Committee.

23 February 1945

TO: The Director

SUBJECT: Reconsideration of Delegation of Authority
to Make Death Benefit Commitments (Cable
#11551, 20 February 1945) from Fargan)

1. Based on Colonel Morgan's recommendation in the above cable, the Board recommends that Strategic Services Officers and Chiefs of Mission be authorized to delegate to Commanding Officers of Field Detachments the authority to commit this Agency up to \$5,000 Death Benefit to sub-agents employed by these Field Commanders.

2. It is the opinion of the Board that Strategic Services Officers and Chiefs of Mission should be allowed to delegate their authorities; however, in their opinion, such delegation is essential to the expeditious work of this Agency. We suggest, however, that it be clearly pointed out to Strategic Services Officers and Chiefs of Mission that in the last analysis they must assume full responsibility for the results of such delegation of authority.

OFFICE OF STRATEGIC SERVICES

Washington, D. C.

22 March 1945

TO: The Director

SUBJECT: Additional Buildings to Provide Space for OSS activities.

The attached memorandum, approved by the Deputy Director, Administrative Services, requests the allocation of \$35,000 for the construction of a building to house OSS Medical Services, and two additional buildings costing \$15,000 each to be used for SI Branch and the OSS Archivist.

On 26 February 1945, the Board forwarded a memorandum to Mr. Cheston, the Acting Director, recommending that unless the Administration, the Public Building Administration and the Bureau of the Budget had changed their attitude, as stated in memoranda of 6 May and 12 May 1944, from Chief, Services, the Board did not feel that funds of this agency should be used to construct temporary buildings. Mr. Cheston concurred in the Board's recommendation.

The Board has now been advised by Mr. Louis Ream that though no more temporary buildings may be erected in the District of Columbia, this restriction does not apply in the case of pre-fabricated buildings.

The Board also understands from Mr. Ream that the Bureau of the Budget has advised him informally that the Bureau has no views one way or the other on the use of OSS funds for such a purpose.

The Board is convinced of the need for additional space in OSS and believes that any possibility of remedying the existing situation should be attempted. It does not wish to make any recommendation concerning the allocation of any new space, since that is the province of the Deputy Director, Administrative Services, and the question of whether any new buildings should be used by Medical Services, SI, the OSS Archivist, or any other branch, is for that office to decide. However, assuming that pre-fabricated buildings will be adequate for the needs of the agency as stated in the attached memorandum, and assuming that any permission necessary can be obtained, the Board recommends that \$65,000 be allocated from temporary funds for the purpose of purchasing and erecting such buildings. To this should be added the amount of ground rent necessary to be paid for the land at 25th & Z Streets, N.E., under the terms of the Memorandum.

16 February 1945

TO: The Director

SUBJECT: Transfer of Maryland Research Laboratory to OSS

1. We attach hereto memorandum of 14 February 1945 from Major Jeffries, together with the file submitted with his letter.

2. We have discussed the proposal with Mr. Lovell, Major Jeffries, Lt. Colonel Hoering and Lieut. Donovan.

3. We believe that a number of considerations point to the desirability of OSS assuming the OSRD contract with Ford, Bacon & Davis;

(a) The expressed desire of Dr. Bush to transfer activities of OSRD to the various Services principally concerned.

(b) The fact that we would acquire a very substantial laboratory installation.

(c) Mr. Lovell's belief that the laboratory should be kept in operation and that the type of work done by the laboratory is especially valuable to this Agency.

(d) The probability that an equal amount of productive work done by various individual contractors would be more costly, less efficient and subject to considerable time drag.

4. We therefore recommend that OSS assume from OSRD the contract with Ford, Bacon & Davis as of a definite date, preferably 30 June 1945.

We recommend that \$350,000. of vouchered funds be allocated to this project for the fiscal year ending 30 June 1945.

We recommend that the General Counsel be instructed to complete the negotiations with OSRD and prepare the necessary contracts to effect the transfer.

We suggest that every effort be made to assure that sufficient funds be transferred from OSRD to OSS to cover all outstanding commitments between OSRD and Ford, Bacon & Davis as of the effective date of our assumption of the contract.

Subject: Colonel O'Connor
(Project No. 3 - Near East - Far East)

1. The Board of Review is holding in an open file its memorandum dated 1 February 1945 recommending the allocation of an amount not to exceed \$100,000 for the so-called Project No. 3 Near East - Far East, proposed by Col. O'Connor. This project envisaged the use of a commercial caravan corporation operating from Turkey, for the purpose of acquiring intelligence from occupied China and the Near East.
2. The Board's memorandum was endorsed by you with the statement that in view of the changed situation you wished to discuss the question with Col. O'Connor.
3. Since that time, the Board has been advised by SI that it regards \$10,000 as having been authorized to Col. O'Connor for a six weeks period ending approximately 1 May 1945. This amount evidently was intended to be used by Col. O'Connor for a review of the present situation in Turkey, after which he is to return to Washington and make further recommendations for continuance of his proposals. The Board would appreciate it if you could advise it whether SI is correct in regarding \$10,000 as having been authorized for the purposes aforesaid and whether you wish any additional action or authorization to be considered by the Board prior to the return of Col. O'Connor.

SUBJECT: Budget of Insurance Intelligence Unit.

On 31 August 1944 the Board of Review recommended that the budget of subject activity for the fiscal year ending 30 June 1945 be reduced from \$300,000 to \$200,000. This recommendation was approved by the Acting Director.

In its recommendation of 31 August 1944, the Board stated it would make a reappraisal of the unit about 1 January 1945. This has been done and without any prejudice to possible future expansion of the unit, the Board recommends that, for the six months ending 30 June 1945, \$80,000 be allocated from Special Funds. This recommendation is concurred in by Lt. Colonel Roger A. Pfaff, Acting Chief, X-2 Branch.

SECRET**OFFICE OF STRATEGIC SERVICES**

Washington, D. C.

11 April 1945

TO: The Acting Director**SUBJECT:** Requirements Committee Recommendations.

1. The Board of Review has considered with Major Jeffries the attached two recommendations of the Requirements Committee for the procurement of 4,000 Sympathetic Fuzes at a total estimated cost of \$40,000 and 5,000 Footshooters at a total estimated cost of \$7,500. In each case it is proposed to let the contract to a supplier who has developed the device and is competent to produce it.

2. The Board has viewed the Sympathetic Fuze which seems to be an excellent device for the detonation of limpets or other explosive devices by using the force of a previous explosion, transmitted through water or air. The Board accordingly recommends that you approve the procurement of 4,000 such fuzes and the allocation of an amount not to exceed \$40,000 therefor.

3. The Board has also received from Major Jeffries an explanation of the Footshooter, an anti-personnel device, designed to send a bullet into a man's foot when stepped upon. Its usefulness is derived from the belief that in certain circumstances the enemy may be hampered more by the wounding of soldiers than by their death. The Board recommends that you approve the procurement of these devices and the allocation of an amount not to exceed \$7,500 therefor.

4. The Board is in agreement with the proposal to use the suppliers named in the memoranda, and in each case recommends the use of vouchered funds.

OFFICE OF STRATEGIC SERVICES

Washington, D. C.

16 March 1945

TO: The Director

SUBJECT: Procurement of Springs and Driving Rods for
Marlin Sub-Machine Guns.

1. The Board has considered the attached memorandum recommending the procurement of 2,000 springs and 2,000 driving rods as repair parts for a number of Marlin Sub-Machine Guns procured and shipped to the Far East Theaters.
2. The Marlin Sub-Machine Guns were originally sent to the Far East several years ago at a time which pre-dated the Board's existence. The Board understands, however, from Mr. McHugh that the Sub-Machine Guns are being used in both Far East Theaters and are necessary for operations being carried out there. The estimated price of the parts being procured is \$6,000.
3. The Board of Review recommends approval for the procurement of the repair parts referred to in the attached requisition and the allocation of the required amount of vouchers and funds therefor.

OFFICE OF STRATEGIC SERVICES

Washington, D. C.

5 March 1945

TO: The Director

SUBJECT: Memorandum of 1 March 1945 from Mr. L. M. Ream,
Chairman, Requirements Committee.

1. Attached is the subject memorandum which Mr. Ream discussed with the Board of Review.
2. The Board has ascertained, in respect of the 500 pistols requested by SO Branch, that the pistols are intended to be sent to Calcutta as a stock pile to be drawn upon by SO personnel for operations in Burma and China. The Chief, SO Branch, is convinced that there is a definite operational need for these pistols.
3. In respect of the 100 pistols to be sent to London, we have been advised by Mr. Ream that London has agreed to accept the .380 caliber pistols in place of the .38 caliber previously requisitioned. It has evidently proved impracticable to develop silencers for the .38 caliber pistol, and accordingly the .380 type had to be used for this purpose.
4. The Board also believes that it is proper to procure 200 pistols for the Bureau of Ordnance of the Navy and 200 to be used in OSS for stock and for testing.
5. The Board has been informed that it is presently contemplated by Procurement and Supply Branch that the contract for these pistols will be placed with a single firm, the High-Standard Manufacturing Company. It is believed by that Branch that placing the order with one firm would lead to advantages in testing and inspection and would probably result in a superior product, since the design and adaptation work on the silencers had been performed by the above-named company. However, no firm commitment has been made nor has a definite price been arrived at, although the company has estimated that the cost will be approximately \$60.00 per weapon.
6. The Board recommends the approval of the items covered by Mr. Ream's memorandum and the allocation of the indicated

SECRET

SECRET

- 2 -

5 March 1945

The Director

amount of OSS vouchered funds. It further recommends that Procurement and Supply Branch compare any price quoted by the High Standard Manufacturing Company with offers by other firms prior to the making of a final commitment and, to whatever firm the contract may ultimately be let, ~~and~~ that there be inserted in the contract a standard re-negotiation clause.

Washington, D. C.

11 January 1945

TO: The Director

SUBJECT: Memorandum of 9 January 1945 from Mr. L. M. Ream
Chairman, Requirements Committee.

Attached is the subject memorandum which Mr. Ream has discussed with the Board of Review.

With respect to the first group of items totalling \$539,700. it appears that the Procurement and Supply Branch has obtained bids from several contractors and the Board is satisfied that the Procurement and Supply Branch has based its estimate of cost on the bid most advantageous to OSS.

The Board is also of the opinion that the suggested quantities are the amounts desired by Colonels Heppner and Coughlin and that their judgment should be accepted.

With respect to the second group of items totalling an estimated \$1,290,000. the Board feels that the judgment of Lt. Colonel Hoffman should be accepted. The cost of these items is based on estimates by the Navy, and Navy estimates are known to be conservative.

The Board recommends the approval of the procurement of the items covered by the memorandum and the allocation of the indicated amount of OSS vouchered funds.

It is pointed out that \$539,700. covering the first items will be payable to one or more private contractors and \$1,290,000. for the second items will be payable to the Navy.

FROM: Louis H. Nease
Chairman, Requirements Committee

8 January 1945

At a meeting of the Requirements Committee held on 16 December 1944, and at subsequent meetings, it was decided to recommend to the Director the following procurement:

ITEM	QUANTITY	ESTIMATED COSTS	
		UNIT	TOTAL
Spigot Mortar Guns	1,500	\$35.00	\$ 52,500
Bombs	50,000	10.00	500,000
Sights	750	60.00	45,000
Practice Bombs	5,000	6.00	30,000
Propellant Cartridges	60,000	.07	4,200
Fuses	30,000	4.00	120,000
			<u>\$530,700</u>

This item was demonstrated to General Donovan and Colonel Kopper and Coughlin at Area "X" in the latter part of December, at which time the General requested that the most expeditious action be taken on this request.

Also, at several meetings held by the Requirements Committee, it was determined to recommend the following procurement:

ITEM	QUANTITY	ESTIMATED COSTS	
		UNIT	TOTAL
Spin Stabilized Rockets	20,000	\$50.00	\$1,000,000
Rocket Launchers (SM. design)	2,000	25.00	50,000
Igniter Assemblies, for training purposes	5,000	48.00	240,000
			<u>\$1,290,000</u>

This item has been demonstrated to representatives of the SO Branch, and Lt. Col. Koffman, a member of the Requirements Committee, and recommended immediate procurement.

The approval of the Acting Director is therefore requested for the immediate procurement of these items.

ADMINISTRATIVE BULLETIN
NUMBER: 2
ISSUED: 6 July 1944
EFFECTIVE: 6 July 1944

TO: List S

SUBJECT: Purchase of athletic and recreational equipment.

The Director has approved a recommendation of the Board of Review that the purchase of athletic and recreational equipment from appropriated funds of OSS shall be in accordance with the following procedure.

1. Regular requisition to Procurement and Supply Branch.

Only items of general use will be purchased, that is, baseballs, bats, gloves and the like but in no event will items be purchased for individual use such as track or baseball shoes.

2. Procurement and Supply Branch will make every effort to obtain the items from sources such as Red Cross, USO and the like but failing to secure these items free of charge, purchases will be charged to limitation .002.

Board of Review

ADMINISTRATIVE BULLETIN
NUMBER: 1
ISSUED: 29 June 1944
EFFECTIVE: 29 June 1944

TO: LIST S

The Directive approved by the Assistant Director and dated 31 May 1944 provides in part as follows: --

"3. Domestic Finances. The following matters pertaining to finance shall be reviewed in Washington by the Board, and recommendations pertaining thereto shall be presented to the Director when appropriate for his consideration:

(a) Policies: The Board shall review all financial policies of OSS, including (i) the general purposes for which all types of funds shall be used, (ii) the types of funds to be used in compensating personnel, (iii) circumstances under which additional compensation may be paid to military or naval personnel, (iv) official expenditures of all Offices, Branches and individuals, and (v) circumstances under which financial claims may be released by OSS.

(b) Projects: The Board shall review all proposed expenditures or inter-agency transfers of OSS funds involving \$5000.00 or more for any one project or purpose, transmitting such proposals to the Director or Assistant Director with recommendations thereon. No such proposed expenditure or transfer shall be presented by any Office, Branch or individual to the Director or Assistant Director except through the Board in accordance with the procedure established herein. The Board shall issue regulations specifying the information to be submitted with each such proposal, and shall have authority to require from the respective Branches and Offices such further data as it may believe to be necessary to enable it to make proper recommendations hereunder."

Pursuant to the foregoing, the Board requests that projects be submitted to it in writing, in duplicate. Whenever necessary, in its judgment, the Board will discuss the project with the Chief of the originating Office or Branch before making its recommendation to the Director.

Specifically, the following types of proposed expenditures are to be submitted to the Director through the Board:

1. Over-all plans approved by the Planning Group. When expenditures of any branch will be more than \$5000 under

(45285)

CONFIDENTIAL

CONFIDENTIAL

- 2 -

the plan, that branch should give the Board of Review details of expenditures.

2. Annual payrolls to be paid from Special Funds

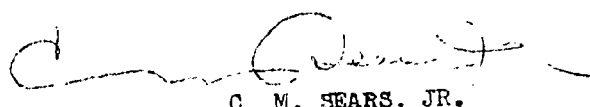

a. Within the Continental U.S.

b. Estimate by each Theater divided between (1) "open" payroll and (2) Agents - where reasons of security make it impossible to give full details.

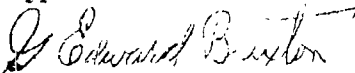

This is for the purpose of advising the Director as to total contemplated personnel paid from Special Funds and the amount of money to be allocated for these payrolls.

3. Acquisition of new or additional facilities such as rental or purchase of space, refurnishing of same to suit OSS purposes, when amount of funds involved is more than \$5000.

4. Plans for activities originating in branches and which may involve expenditure of more than \$5000 other than plans which come under paragraph 1 above.

ADMINISTRATIVE BULLETIN
NUMBER: 2
ISSUED: 5 August 1944
EFFECTIVE: 5 August 1944

TO: List S

SUBJECT: (a) Salary increases - civilian personnel, exclusive
of agents, outside of Continental U. S.
(b) Salaries of new employees recruited overseas.

The Board of Review has recommended to the Director a uniform policy covering civilian salary increases overseas and the determination of initial salaries of new civilian employees.

The Director's Order on this subject is General Order 75-5.

To give Office and Branch Chiefs complete information on our recommendation, the text is reproduced herewith:

"1. The fundamental OSS policy relative to salaries of all civilian personnel is that salaries of employees paid from Special Funds or from limitation .002 shall be as nearly as possible the same as Civil Service compensation for positions of similar duties and responsibilities.

2. This result is accomplished in the Continental U. S. through close cooperation between Special Funds Branch, which approves Special Funds payrolls, and Civilian Personnel Branch, which is responsible for the application of Civil Service rules and salary classification.

3. The problem of equitable pay increases outside of Continental U. S. is more difficult since in most locations we do not have men trained in Civil Service classification to assist or advise the Strategic Services Officer, the Special Funds Officer and the Finance Officer in their consideration of proposed pay increases.

4. At present, Civil Service promotions are accomplished by recommendation from a Strategic Services Officer to Civilian Personnel Branch in Washington, giving a job description of the new duties to be performed and additional data necessary to enable that branch to approve or disapprove the promotion.

5. The Board believes that we should have in each theater an employee sufficiently qualified in Civil Service classification and pay procedure to be authorized to approve Civil Service promotions and to recommend to the Strategic Services Officer the action to be taken on suggested promotions of all employees, including Special Funds employees in positions comparable to Civil Service. This employee could well be trained in Government

CONFIDENTIAL

- 2 -

accounting methods and be able to serve both as accountant and classification expert. When, in the opinion of the Chief, Civilian Personnel Branch and Chief, Special Funds Branch, such an employee is qualified to advise the Strategic Services Officer as to proper compensation for each type and classification of employee, the Strategic Services Officer will be empowered to make salary adjustments without the prior approval of the Washington Headquarters. Any promotions so accomplished will be reported promptly to the Chief, Civilian Personnel Branch or to the Chief, Special Funds Branch.

6. Until this can be accomplished, the Board recommends that:

(a) Recommendations for promotion or reclassification of civilian employees paid from regular funds (Civil Service or .002 funds) shall be transmitted by the Strategic Services Officer, through the appropriate Office or Branch Chief in Washington, to the Chief, Civilian Personnel Branch for appropriate action. These recommendations will be in the form and contain data prescribed by the Chief, Civilian Personnel Branch.

(b) Recommendations for promotion of civilian employees, other than agents, paid from Special Funds shall be transmitted by the Strategic Services Officer through the appropriate Office or Branch Chief in Washington to the Chief, Special Funds Branch for appropriate action after consultation, when appropriate, with the Chief, Civilian Personnel Branch. These recommendations will be in the form and contain data prescribed by the Chief, Special Funds Branch.

(c) No salary increases to civilian personnel outside of Continental U. S. will be effected by Office or Branch Chiefs in Washington, except by recommendation through Strategic Services Officers.

(d) No base salaries shall be increased to compensate for overtime in excess of 48 hours per week. Such adjustments will be effected through the regular overtime pay procedure as defined in Administrative Instruction No. 2.

7. The salaries of new civilian employees recruited outside of Continental U. S. will be determined in accordance with paragraphs 5 and 6 above."

ADMINISTRATIVE BULLETIN
NUMBER: 3
ISSUED: 22 August 1944
EFFECTIVE: 22 August 1944

TO: List S

SUBJECT: Allowances to Civilians for Special Clothing

General Order 75-8 makes provision for the above.

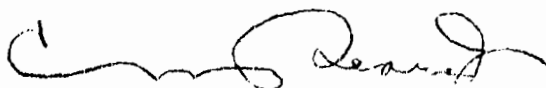

The Board's recommendation to the Director was in recognition of the fact that, in some cases, civilians are assigned to overseas posts where the special nature of their duties or peculiar climatic conditions require clothing not ordinarily possessed by civilians employed in Continental U. S. For example:

Special Arctic clothing
Special Tropical clothing

It was not the intention of the Board that, for instance, a civilian going to the British Isles would be provided with a heavy overcoat merely because it might be cold there or that a raincoat would be furnished because it might rain.

However, if a civilian were ordered to Attu, it is entirely possible he would need furs or special shoes not ordinarily possessed by a civilian in this country.

ADMINISTRATIVE BULLETIN
NUMBER: 3
ISSUED: 10 July 1944
EFFECTIVE: 7 July 1944

TO: List S

SUBJECT: Payment of transportation cost and per diems to
prospective civilian employees
and
Payment of transportation cost of new civilian
employees.

1. Transportation costs and per diems will be allowed to prospective civilian employees who are required to attend Assessment School. Office or Branch Chiefs concerned with the employment of such personnel may requisition from Special Funds Branch funds to defray the cost of transportation and per diems (to be accounted for in accordance with Special Funds Branch regulations) in the following amounts:

(a) One way first-class railroad and Pullman charges or 3 cents per mile for the use of private automobile from the prospective employee's present location to the assessment school (when the employee can enter on duty without returning to point of origin).

(b) Round trip first-class railroad and Pullman charges from the prospective employee's present location to the assessment school and return (when the employee must return before entering on duty).

(c) \$6.00 per diem, computed in accordance with standard Government travel regulations:

(1) From the time of the employee's departure from his present location to his return there or to his entrance on duty with OSS, if the employee enters on duty immediately after completing the assessment school work, or departs at the earliest practicable moment after he has been informed of acceptance or rejection. No per diems will be allowed while the employee is receiving quarters and subsistence.

(2) If the prospective employee, upon notification that he is acceptable, chooses to remain in Washington for several days before entering upon duty, no per diem should be allowed for this interval.

SECRET

(46185)

SECRET

- 2 -

2. Transportation costs only will be allowed to new employees whose base pay is at the rate of \$2600 per annum or less.

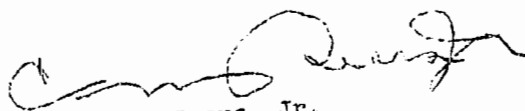

OSS representatives who are empowered to recruit civilian personnel may obtain funds to pay the cost of first-class rail and Pullman charges or 3 cents per mile for the use of private automobile from an employee's present location to Washington as follows:

(a) In the case of employees to be paid from Special Funds, requisitions for funds or reimbursement vouchers will be submitted to Special Funds Branch.

(b) In the case of Civil Service employees or employees to be compensated from regular funds, vouchers will be submitted to the Finance Branch.

Requisitions for funds or reimbursement vouchers will be submitted in such form as may be prescribed by the Chief, Special Funds Branch or Chief, Finance Branch.

ADMINISTRATIVE BULLETIN
NUMBER: 4
ISSUED: 16 August 1944
EFFECTIVE: 21 August 1944

TO: List S

SUBJECT: Salaries, per diems or allowances - civilian personnel
outside of Continental U.S., exclusive of secret agents.

General Order 75-7 sets forth the policy of OSS with reference to the above subject.

For additional information of Office and Branch Chiefs, the Board quotes herewith from its recommendation submitted to the Director:

"The Board believes that it should be a fundamental policy of OSS that salaries, per diems (for those in travel status) or allowances (for those at permanent posts) to all civilian personnel outside of Continental U.S. conform as nearly as possible to amounts paid or allowed by other Government agencies. It further believes that employees paid from Special Funds or from limitation .002 (in other words, non-Civil Service employees) should receive the same pay and allowances as Civil Service employees in like positions and locations. The Board recognizes the difficulty of assigning Civil Service classifications to many confidential positions but believes that substantial correlation can be accomplished.

Civil Service employees outside of Continental U.S. are paid salaries at uniform rates applicable to their position, regardless of the theater to which they are assigned. Those not in travel status receive a quarters and subsistence allowance determined, for a particular location, by the State Department and adopted by the Bureau of the Budget. The Board believes that this rule should apply to all OSS civilian employees, except secret agents.

At the present time pay and allowances for non-Civil Service personnel vary widely as between locations or theaters. Some receive, or did receive per diems; others a living allowance and others an amount to cover rent and food.

In the North Africa Theater per diems or living allowances were discontinued as of 1 February 1944 as far as most special funds personnel were concerned, but Civil Service employees continue

(49632)

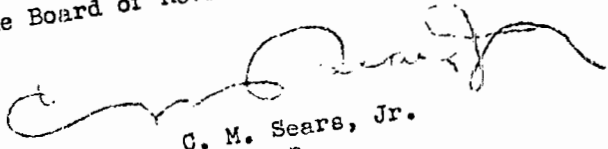

SECRET

SECRET

on the State Department formula. In that Theater an attempt has recently been made to adjust inequities by increasing the base pay of non-Civil Service employees. The Board believes that this is unwise from an overall OSS point of view and, in many cases, unfair to the employee for the following reason:

1. Adjustments of base pay in any one theater without reference to established Civil Service rates will inevitably lead to wide discrepancies as between theaters. If an employee whose base pay had been so increased were transferred to another theater where different rules applied, serious confusion and morale problems would immediately become apparent."

GENERAL ORDER
NUMBER: 75-2, Supp. 2
ISSUED: 22 March 1945
EFFECTIVE: 21 March 1945

TO: LIST S

SUBJECT: Payment of Transportation Cost and Per Diem to
Prospective Civilian Employees

General Order Number 75-2, effective 7 July 1944 is hereby amended by adding a new paragraph 3 thereto, reading as follows:

3. Transportation costs, but without per diem, will be allowed to civilian employees for return from Washington to the place of employment in the event they are subsequently disqualified for OSS employment, under the following conditions: -
 - a. Actual employment takes place away from Washington under circumstances believed by the Deputy Director, Personnel to make employment in Washington impracticable or impossible.
 - b. Such employment is made subject to a medical examination, approval by the Security Office and, where applicable, approval by the Assessment School for overseas duty.
 - c. The employee proceeds to Washington and is subsequently disqualified for OSS employment by the Chief Surgeon, the Security Office or the Assessment School.
 - d. The employee in fact returns to the place of employment.

If the employee is disqualified for or does not undertake duties with OSS for reasons other than those set forth in (c) above, then the cost of return transportation from Washington will not be borne by OSS.

Requisitions for funds or reimbursement vouchers will be based upon the same rates as those established in paragraph 1 hereof. Requisitions will be submitted to Special Funds Branch if the employees are to be compensated from Special Funds, or, if not, to the Finance Branch, in such form as may be prescribed by those branches.

SUBJECT: Barter Items and Special Equipment

The following recommendation of the Board of Review is hereby approved:

1. Strategic Services Officers shall stock pile such so-called barter items (materials to be issued in exchange for confidential information), as well as cameras, wrist watches and non-standard firearms as they may consider necessary for issuance in their respective theaters.
2. No such items shall be issued in Continental U. S. except upon requisition from Office or Branch Chiefs, or their authorized representatives certifying that the person to whom such items are to be issued is assigned to an area where the materials or equipment cannot be secured from regular OSS installations or that cover arrangements prevent the employee from securing the items from such installations.
3. Until Strategic Services Officers have had an opportunity to build up a stock of these items, Procurement and Supply Branch is authorized to fill requisitions originated by Office or Branch Chiefs in Washington. Office or Branch Chiefs shall instruct their employees to turn over to the Strategic Services Officer, upon arrival in the theater, any such items procured in Washington.
4. Office or Branch Chiefs or individuals in Washington or New York, who are now in possession of items referred to herein, issued to them by OSS, shall immediately return such items to Procurement and Supply Branch, to be there-after issued in accordance with this order.

TO: List S
 SUBJECT: Special Clothing Allowance

The following recommendations of the Board have been approved by the Director:

1. Army or Navy personnel - ordered to wear civilian clothes for official duties;

Office or Branch Chiefs may requisition up to \$200 per person from Special Funds to procure necessary civilian clothing. Unused funds together with complete receipts for purchases will be delivered to the Special Funds Branch at the earliest practicable time.

After one year from the date of the original allowance, Office or Branch Chiefs may requisition from Special Funds up to \$100 for the purpose of clothing maintenance or replacement during the ensuing **twelve** months.

2. Civilian personnel - ordered to wear non-combatant Army or Navy clothing;

Office or Branch Chiefs may requisition up to \$200 per person from Special Funds to procure necessary clothing. Unused funds together with complete receipts will be delivered to Special Funds Branch promptly.

Office or Branch Chiefs are urged to have personnel use enlisted personnel clothing wherever possible, thus avoiding the cost of officer's clothing. Requisitions for Army or Navy clothing of this type should be made to Procurement and Supply Branch.

3. Exceptional cases - primarily when Army or Navy personnel are ordered to wear civilian clothes for official duties in neutral countries;

SUBJECT: Funds from which employees will be paid

The following recommendation of the Board of Review is hereby approved:

- (a) Only secret agents and other employees, who, for security reasons, should not be identified with OSS, may be paid from Special Funds - limitation .003 - except that employees stationed overseas at points where regular government payroll facilities cannot be made available may be paid from Special Funds.
- (b) All other employees now paid from Special Funds shall be transferred to voucher funds (.001) as soon as Civil Service positions are available, except
- (c) .002 funds will be used to pay the following types of personnel:
 - (1) Aliens (by law, cannot be Civil Service)
 - (2) Employees selected for overseas service (until arrival at overseas post)
 - (3) New employees whose entrance on duty at an early date is urgent and where the only delaying factor is the time involved in securing Civil Service clearance of qualifications. (Such employees would be transferred to .001 funds upon clearance)
 - (4) Employees, principally stenographic, typist or clerical, who are brought into a training pool and held there pending specific assignment.
 - (5) Rare cases of an employee who should receive a salary increase but where rigid Civil Service rules make a reclassification almost impossible. Such employees shall be promoted only upon specific

(48700)

GENERAL ORDER

NUMBER: 75-7, Supp. 1
ISSUED: 28 February 1945
EFFECTIVE: 26 February 1945

TO: List S

SUBJECT: Living Allowances for Liberated Areas and China

1. General Order 75-7, issued 16 August 1944, and Administrative Bulletin No. 4, issued 16 August 1944, are hereby implemented.
2. Paragraph 3 of General Order No. 75-7 provides that all OSS civilian employees, except agents, who are not in travel status shall receive a living and quarters allowance in accordance with the State Department formula (see Budget Circular No. A-8 and amendments).
3. An amendment was issued to Budget Circular No. A-8 on 29 September 1944, prescribing, among other things, a special maximum foreign living allowance for posts in liberated areas and China. These special allowances were established because of the unusual and extraordinary conditions prevailing in these areas. A copy of the amendment is attached.
4. The maximum rates prescribed for liberated areas are set forth in paragraph 2 of the amendment. It should be noted that paragraph 2 provides that suitable adjustments below the maximum allowances shall be made when the unusual or extraordinary conditions are modified to the extent that maximum allowances are not necessary.
5. Accordingly, each Theater Board of Review shall make a recommendation to the Strategic Services Officer as to the living and quarters allowance to be paid, within the maximum permitted by the amendment, in liberated areas in the Theater concerned, and the Strategic Services Officer shall thereupon establish the amount of allowance to be paid. In making its recommendation, the Theater Board shall consider, among other factors, the rates fixed by other Government agencies for their employees in these areas.

(65079)

SECRET

SECRET

- 2 -

6. The Theater Board shall review its recommendation every three months (unless special circumstances require a more frequent review) to determine whether adjustments should be made by the Strategic Services Officer in the allowance because of changes in the unusual and extraordinary conditions prevailing in the areas. The Theater Board shall transmit to the Board of Review, Washington, copies of all such recommendations, together with a statement of the considerations upon which the recommendations are based, and copies of all rate schedules established by the Strategic Services Officer. The Board in Washington will periodically report to the Director on the entire matter, making such recommendations as it may deem appropriate.

7. The special allowances for posts in China are set forth in paragraph 3 of the amendment. Since the rates for China are not discretionary, no action by the Theater Board is necessary. All civilian employees in China who are entitled to a living and quarters allowance shall receive the allowance in accordance with the terms of the amendment.
